The President then reported to the board the purport of a conversation he had just had with a prominent member of the Boston Chamber of Commerce in reference to the plan adopted by that organization for making their certificates of membership valuable. He suggested that the members of the board of the Richmond chamber give this subject consideration, with the view of adopting a similar plan here, and promised to lay before the chamber some literature upon the subject which would be sent him from the Boston chamber.

There being no further business before

the board, the meeting adjourned.

The Pulse of New York.

This story of life in Gotham will be told at the Theatre to-night by C. N. Bertram's company. The play is said to be far above the ordinary melodrams, and the com-

pany is represented to be entirely competent. The piece is staged with a full carload of scenery. The first act ends with the steam pile-driver in operation, in which the hero has a hairbreadth escape and is rescued by the heroine; act two terminates with a realistic view of the New York Elevated railroad system, two trains passing each other in view of the audience, with the heroine and hero suspended from the ties above; act three gives the dock scene on the East river, with a picture of low life in New York, the performance closing with a fire scene, in which a picture of low life in New York, the performance closing with a fire scene, in which Polly makes the famous leap for life from the burning building to a not below. CADIZ, SPAIN, March 10.—All the Anarchists charged with participating in the recent attack upon the town of Xeres, who were tried by the court-martial that convened in this city yesterday have been acquitted. This decision is somewhat of a surprise. It was stated shortly after the execution of the four Anarchist leaders, who were garroted in the plaza fronting the Xeres jail, that none of the remaining Anarchists would be executed, but it was thought that a number of them would be sentenced to imprisonment. Comment is made upon the finding of the court-martial, and it is said that the Anarchists have fared better at the hands of the military tribunal than they would have done had they been tried in the criminal court.

Reciprocity with France. Pasis, March 10.—The French Foreign Office announces to-day that the commercial treaty with the United States has been concluded. The hitch in the negotiations regarding the value of the articles to be mutually admitted free of duty was overcome by the friendly attitude of both parties to the treaty. The value of the free articles is fixed at 9,000,000 francs annually.

BERLIN, March 10.—Emperor William is confined to hit bed. His physicians say that he is suffering from cold. RETIRES TO PRIVATE LIFE.

Warrants for His Arrest to Be Issued at Once, It Is Said-His Broken

QUEBEC, March 10.-Mr. Mercier has re signed his seat in the Legislature and issued a circular to his friends in which he says: "Calumny has got the better of the Constitution and the people have re-fused to blame the man (Lieutenant-Governor Angers) who substituted him-self for the Houses of Parliament and who dissolved them without reason. All the

dissolved them without reason. All the good I have done has been set aside, and ingratitude is my only reward. The verdict of the people is unjust, and will be severely blamed by history. But meanwhile I must submit and return to private line. I forgive those who cammnated: I will endeavor to ignore always the names of those who were beholden to me and who betrayed me, and I will remember those friends who were faithful to me in adversity as in prosperity. I will return to the labora of the field in order, if possible, to regain health, and to my lawyer's office for the maintenance of my family."

To be prosecuted.

The Conservative organs announce that it is the intention of Mr. Casgrain, the Attorney-General, to at once take out warrants for the arrest of Mr. Mercier and all the minor boodiers, and to prosecute them to the full extent of the law. Many Laberals who voted against Mr. Mercier are not in favor of prosecuting him. His defeat and humiliation is, they claim, a sufficient punishment. This opinion is shared by many Conservatives, but those who are in authority declare that the warrants will be issued within a tew weeks after Parliament meets.

Intimate friends of the ex-Premier say that he is a very sick man. The excitement and worry of the exampagn, combined with other causes, have made fearful inroads upon his constitution, and it is not likely that he will ever again take a prominent part in public life.
